ADVANCED CEREC CONCEPTS

Go beyond the basics at this exciting new seminar – and discover how CEREC can take your practice to a new level!

Friday, November 18, 2011

PATTERSON
DENTAL

Are you ready to become a CEREC power user?

Explore advanced CEREC concepts, including:

- Software theory – not just the basics, but the theory behind why the software does what it does
- Redcam or Bluecam ... compact or MC XL – what the differences really are, and a look toward the future
- Parameters revealed – what they do and how to take advantage of them
- CEREC bonding – advantages and disadvantages of each system
- How to move from simple quadrants to more advanced quadrant techniques
- Tips and tricks to make anterior CEREC dentistry more predictable
- Using GALILEOS/CEREC integration to bring implantology to the next level in your office
- A look into the future of CEREC

Speaker:

Bob Conrad, DDS

Dr. Bob Conrad is a 1987 graduate of the University of Texas Dental Branch at Houston. After graduation he entered into his general practice residency with Olen E. Teague Veterans' Medical Center in Temple in 1988. In 1990, Dr. Conrad completed his prosthodontic residency at the VA Medical Center in Houston, where he received his certification of prosthodontics. Dr. Conrad's state-of-the-art dental facility is widely recognized as a premier example of exemplary office design and technological innovation. Considered by many to be one of the most dynamic and entertaining lecturers in dental education, he is recognized for his skill in teaching the CEREC method because of his in-depth understanding of CEREC software and his ability to communicate his easy-to-follow protocols. Dr. Conrad is also a co-founder of Southwest Clinical Technologies and author of the CEREC Encyclopedia training series. He resides with his family in Katy, Texas.
