PATTERSON DENTAL PRESENTS

**CEREC 4.0
HAS ARRIVED!**

FEBRUARY 9, 2012

PATTERSON DENTAL PRESENTS
**CEREC® 4.0
HAS ARRIVED!**

FEBRUARY 9, 2012

CEREC® 4.0 is a comprehensive upgrade of the CEREC® software platform, launching the CEREC® system forward with powerful new features to make CEREC® more productive in your practice than ever.

Outstanding features of CEREC® 4.0 include:

- **Multiple restoration design** – Work on as many different restorations as you wish, even in different quadrants and arches
- **Work directly on the tooth** – Execute design tools directly on the tooth, such as adding or removing material, rotating or positioning, or expanding or reducing tooth size
- **Streamlined restoration design** – Move backward and forward without undoing previous design steps

Join CEREC® expert Dr. Carl Boschetti for a guided training through the most exciting development yet in CAD/CAM restorative dentistry.

Speaker: Carl Boschetti, DMD

A 1976 graduate of Tufts University School of Dental Medicine, Dr. Carl Boschetti is a member of the American Dental Association, the New Hampshire Dental Society, the United States Dental Institute and the Academy of CAD/CAM Dentistry. Dr. Boschetti has performed ceramic restorations in his Exeter, NH, family practice for several years. In addition to maintaining his practice, he also teaches dental applications and procedures of CEREC dentistry to other clinicians in his training facility.

RSVP TODAY!

Seating is limited
and will go quickly.
