

free Hands-on Digital Impression and CEREC System Course

Get ready to experience today's high-performance CEREC – more powerful, more responsive and more user-friendly than ever before. See how advanced CAD/CAM technology can benefit your practice at this hands-on course!

Course Description:

- Learn the latest CEREC software that has been described as the most “user friendly” software to date
- Learn how to design and mill out finished restorations that are lab quality
- Learn how CEREC can bring new revenue and energize your practice
- Learn how CEREC can now give your patients the “WOW” factor in how they look at your practice
- Learn how CEREC can “jump start” your practice to bring in new referrals
- Learn how the new CEREC Bluecam can give you HD quality visualization of your preps and restorations
- You will be seated next to a current CEREC owner and learn firsthand how they do Single Visit Restorations

Event Speaker:

Todd Resek, DMD

Dr. Todd Resek, a 1994 graduate of the University of Pittsburgh School of Dental Medicine, practices general and cosmetic dentistry in Oakmont, Pa. In 2011 he received the Academy of General Dentistry Fellowship Award. Dr. Resek began using the CEREC 3 nearly four years ago and has since progressed to the CEREC AC Bluecam, completing more than 1,200 CEREC cases. He is one of 50 national CEREC mentors for the Scottsdale Center for Dentistry in Arizona and is a CEREC trainer for Patterson/Sirona.
