Eaglesoft 16

What's new
in 16?

Join us to learn about these updates and much more:

• Line item accounting – Apply a payment directly to a specific line item

• Customizable windows and dockable panels – Choose how much information to display on the Account, Appointment and OnSchedule windows and where to place information within these windows

• Family Walkout – Process a walkout for all family members at once

• Date-Based Reporting – Run financial reports for any range of dates

Much more!
