

GRINS

for a Good Cause

Support Breast Cancer Awareness

Grins for a Good Cause is Patterson Dental's initiative to promote local breast cancer awareness through our network of 75 branches. We have partnered with local breast cancer awareness organizations across the country to make a difference in the communities where we live and work. Last year we raised approximately \$300,000 for inspiring groups across the nation. With your help, we know we can make an even greater impact in 2011.

Prize Drawings:
