A New Type of Technology

Thursday, November 3, 2011 | Houston, Texas

# PLANMECA

ProMax 3D Mid

# Expand Your Diagnostic Imaging Capabilities

Join us for dinner and a discussion of 3D imaging in today's dental practice.

Featured speaker Dr. Bob Langlais of the University of San Antonio will lecture on how clinicians are currently using 3D technology in their practices. Come listen and learn what a third dimension has to offer, from endo to implants. Jim Pienkowski, VP, PLANMECA USA, will speak on the latest in dental technology, from computerized dental chairs to doing 90 percent of routine X-rays extraorally.

## Special preview of PLANMECA ProMax® 3D Mid!

2D/3D fusion for a complete imaging solution

- 3D, Panoramic, Ceph, 2D Extraoral Bitewing and more in one unit
- Volume sizes for every clinical application
- Automatically adjusts volume sizes for children
- High resolution, low dose limits excess radiation
- DICOM compatibility

Thursday, November 3, 2011

6:00 p.m.-9:00 p.m.
