

SUPPORT THE FIGHT FOR INFECTION PREVENTION.

Support the fight for infection prevention.

Risk of disease transmission is real. OSAP, the Organization for Safety, Asepsis and Prevention, is a unique community of experts using advocacy and education to help keep dentistry safe and infection-free. Resources, checklists, and training protocols are available at www.OSAP.org.

During the month of October, every time you purchase one of the featured products* in the green-banded section, a portion of the proceeds will be donated to the OSAP Foundation to help build more prevention tools for the profession.

*OSAP does not endorse any companies or products, but thanks Patterson Dental and these special OSAP corporate members for their commitment and support of this campaign.

Your Infection Control Specialist™

**It's 99.9999% deadly.
Just not to you.**

Virucidal. Bactericidal. Tuberculocidal. Just not harmful to you or your patients. OPTIM® disinfecting wipes kill germs on surfaces fast – up to 10 times faster than other leading cleaners. Also, the solution readily biodegrades into water and oxygen after disinfection.

Sterisil® Straw

Goodbye tablets, hello convenience.

Price: \$4.95 each (100 bottles)

- Sterisil® Straw is the solution for transitioning from daily tablets
- Requires only a single yearly change-out and takes only minutes to replace (no tools needed)
- The Sterisil® Straw works 365 days to continuously disinfect dental unit water lines
- Provides safe and clean water for your patients, staff and dental unit
- FDA cleared and EPA registered to produce less than or equal to 10 CFU per ml HPC purity; 50 times below the ADA and CDC guidelines
- The only product to include automatic shock treatment upon initial use for optimum control of HPC bacteria, in addition to the EPA residual disinfectant to prevent the growth of bacteria
- Works with any size water bottle and eliminates the need to empty bottles, purge and air dry lines at night
- No taste, no odor and non-corrosive
