IT'S TIME TO PUT **PATIENT SAFETY** FIRST.

Visit DentalSupplyIntegrity.com

Deep-discount dental products that appear "too good to be true" are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe grey market and illegal black market products. Learn more about grey market dental supplies and Patterson's commitment at DentalSupplyIntegrity.com.

Potentially unsafe "Grey Market" or illegal "Black Market" refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

Composi-Tight® 3D Fusion™

Full Curve Non-stick Matrices

NEW!

3D Fusion Full Curve Bands are unbeatable!

Wrap it up – Full Curve bands wrap further around the tooth, out of the way, making ring placement easier. Still dead-soft and a skinny 0.0015" thin, they're the perfect choice.

Keep tabs on 'em – An occlusal placement Grab-Tab™ gives you excellent control with any placement instrument you choose. Just bend it over the adjacent tooth after you've positioned the band.

Go deep or wide – Improved subgingival extensions and added wrap-around length mean improved results on those more challenging restorations.

Easy in – Even though 3D Fusion Full Curve Matrices are made from the same ultra-thin dead-soft stainless steel as our other non-stick bands, their advanced curved form improves structural rigidity, making them our easiest-to-place band ever.

Easy out – 3D Fusion Full Curve matrices wouldn't be complete without the Slick Bands coating invented by Garrison. It reduces the adhesion of bonding agents and composites by a massive 92%. Regardless of your materials, these bands will slide right out!

FXB02 3D Fusion Band Kit (049-8147) \$360

Includes 210 bands, 5 sizes.

IT'S TIME TO PUT **PATIENT SAFETY** FIRST.

Visit DentalSupplyIntegrity.com

Deep-discount dental products that appear "too good to be true" are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe grey market and illegal black market products. Learn more about grey market dental supplies and Patterson's commitment at DentalSupplyIntegrity.com.

Potentially unsafe "Grey Market" or illegal "Black Market" refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

Enamel Pro® Varnish

Desensitizes Dentin • Aids in the prevention of caries

Nice aesthetic appearance, patient pleasing and with studies supporting fluoride uptake, fluoride release and diminished hydraulic conductance.^{1,2,3}

VITA ENAMIC® CAD/CAM Implant Solutions

Clinically Proven Force Absorption for Prosthetic and Implant Success

Greater force absorption

ENAMIC-implant supported crowns absorb 71% more mastication forces than zirconia restorations – much higher than either glass ceramic or gold alloy.

Higher implant success

Clinical studies demonstrate an increase in survival rate of 98.7% with ENAMIC implant-supported crowns.

Faster chairtime

With no furnace required, ENAMIC IS decreases chairtime by up to 50% compared with other CAD/CAM material.

IT'S TIME TO PUT **PATIENT SAFETY** FIRST.

Visit DentalSupplyIntegrity.com

Deep-discount dental products that appear "too good to be true" are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe grey market and illegal black market products. Learn more about grey market dental supplies and Patterson's commitment at DentalSupplyIntegrity.com.

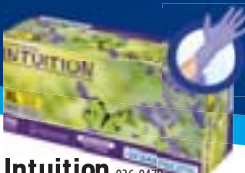

Potentially unsafe "Grey Market" or illegal "Black Market" refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

IT'S TIME TO PUT PATIENT SAFETY FIRST.

Visit DentalSupplyIntegrity.com

Deep-discount dental products that appear "too good to be true" are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe grey market and illegal black market products. Learn more about grey market dental supplies and Patterson's commitment at DentalSupplyIntegrity.com.

Potentially unsafe "Grey Market" or illegal "Black Market" refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

Oral Cancer Screening

GOCCLES®

EYES ON PREVENTION

UNIVET
OPTICAL TECHNOLOGIES
MADE IN ITALY

is a **new innovative** device that permits an **easy, non invasive** and **non-painful examination** of the oral cavity, able to **reveal cancerous** and **pre-cancerous lesions**

044-7532

INTRODUCING GOCCLES®

Innovative medical device conceived and patented by the team of oral and maxillo-facial surgeons of the Catholic University of Rome – Policlinico Gemelli, GOCCLES® is an eyewear equipped with a patented optical filter to be used in combination with any curing light available in dental offices.

GOCCLES® allows the observation of the fluorescence of the healthy mucosa and helps to detect suspicious precancerous and cancerous lesions, which are sometimes barely or totally invisible to the naked eye.

CURING LIGHT

GOCCLES® works in conjunction with curing lights available in all dental clinical offices and it does not require additional disposables or accessories. When common dental curing lights irradiate the mucosa, a specific molecule (Flavin Adenine Dinucleotide - FAD) is excited and emits a feeble light visible only with special filters.

FILTER

GOCCLES® is equipped with a patented optical filter, conceived and manufactured in Italy, that helps to isolate the light emanating by FAD and permits the observation of suspicious lesions of oral mucosa. The unique filter of GOCCLES® enhances the identification of margins of the cancerous and precancerous lesions.

WHY TO CHOOSE

- Works with common curing lights
- Innovative patented optical filter
- Easy to use
- Tissue autofluorescence
- Non invasive

Erythroleukoplakia

Can be worn over prescription glasses

Adjustable nose pad and temple tips

Unique and patented optical filter

Goccles® patent and trademark belong to Pierral Pharma, s.r.l., exclusively licensed to Univet, s.r.l.
