

Harness the Power

Get ready to experience today's high-performance CEREC – more powerful, more responsive and more user-friendly than ever before. See how advanced CAD/CAM technology can benefit your practice at this hands-on seminar!

Course Description:

- Learn the latest CEREC software that has been described as the most “user friendly” software to date
- Learn how to design and mill out finished restorations that are lab quality
- Learn how CEREC can bring new revenue and energize your practice
- Learn how CEREC can now give your patients the “WOW” factor in how they look at your practice
- Learn how CEREC can “jump start” your practice to bring in new referrals
- Learn how the new CEREC Bluecam can give you HD quality visualization of your preps and restorations
- You will be seated next to a current CEREC owner and learn firsthand how they do Single Visit Restorations

Event Speaker:

John Tumminelli, DDS

John M. Tumminelli, DDS has been a CEREC owner since 2005. He performs all aspects of cosmetic, implant and family dentistry with a particular focus on esthetic and CAD/CAM computerized dentistry. Dr. Tumminelli has helped many prospective CEREC owners to decide on whether to integrate CAD/CAM dentistry into their practices. He is also a trainer for

Patterson Dental. Dr. Tumminelli is a 1998 graduate of SUNY Buffalo School of Dental Medicine. He maintains a full-time private practice in Rochester, New York and owns 2 CEREC units. He is committed to delivering the latest advancements in oral health care for his patients.
