

# INCORPORATING DIGITAL SCANNING INTO TODAY'S PRACTICE: IT'S NOT ABOUT "IF" BUT "WHEN"!

The thought concept of digital scanning is that it takes an impression, and truth be told, today's digital scanning does this and so much more. This course will take the attendee into my world and how we utilize digital scanning at every initial exam, and how this compliments all diagnostics into treatment plan acceptance. Isn't that what it's all about? It will take the attendee into understanding how digital scanning can make traditional impressions disappear along with multiple ways that you simply can't do traditionally.

## HIGHLIGHTS

- How Time Lapse answers the questions: Are my teeth moving? Is my recession worse? Am I grinding? Yep, and more to show
- The initial exam: What do we really need today for our patients to create the "Want and Need"
- How this will be incorporated into recall visits.
- Digital Scanning that enhances lab communication and casework to show
- Correcting the issues that drive you nuts in Crown and Bridge

## SPEAKER DR. LOU GRAHAM

Dr. Graham is an internationally recognized lecturer extensively involved in continuing education for dental professionals, focusing on incorporating current clinical advancements through "conservative dentistry."

He emphasizes in his teachings the same concepts he practices:

dental health diagnosis, treatment plans for medically compromised patients, conservative treatment, cosmetic dentistry, and customized approaches to periodontal care, implants and laser dentistry. Dr. Graham is a published author in many leading national and international dental journals. He is a member of the ADA, AACD, AGD, Chicago Dental Society and Illinois Dental Association. Dr. Graham is a graduate of Emory Dental School. He is the former Dental Director of the University of Chicago's Department of Dentistry. Dr. Graham is the founder of Cata-pult Education, LLC and he enjoys providing dental care at his private practice, University Dental Professionals, in Chicago, IL – Hyde Park.
