

Vanish™

5% Sodium Fluoride White Varnish
with Tri-Calcium Phosphate

Protection that delivers better performance.

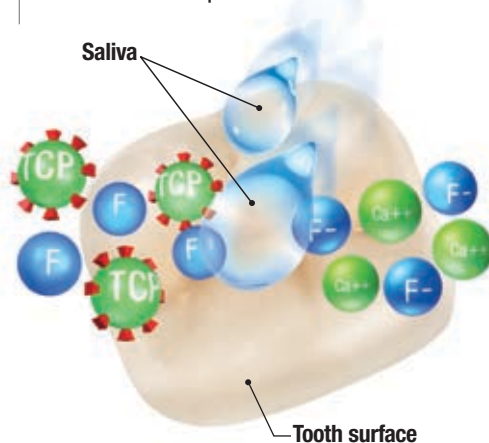

Summary of advantages

- The #1-selling fluoride varnish in the U.S.
- Now contains TCP, an exclusive calcium and phosphate ingredient
- 5 years of clinical success
- Contains 22,600 ppm fluoride
- Covers more tooth surfaces to deliver fluoride
- Releases calcium
- Easy to apply
- Relieves hypersensitivity
- Contains xylitol

3M ESPE's *exclusive* TCP offers more protection.

Vanish™ 5% Sodium Fluoride White Varnish with Tri-Calcium Phosphate (TCP) is a **proprietary formula** that contains fluoride, calcium and phosphate—components naturally found in saliva. It delivers targeted and sustained fluoride and calcium release.

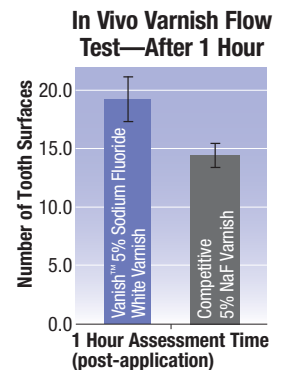

During the manufacturing process, a protective barrier is created around the calcium allowing it to coexist with the fluoride. After application, Vanish white varnish flows across tooth surfaces and comes in contact with saliva, releasing fluoride AND calcium over the life of the varnish—up to 24 hours!

Flows better.

Clinical studies show that Vanish white varnish flows to more than twice as many tooth surfaces after application.

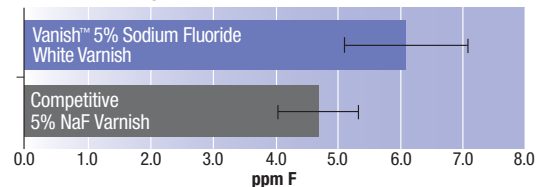

Vanish™ 5% Sodium Fluoride White Varnish was applied to 8 anterior maxillary surfaces in vivo. After application, it moves across the teeth, penetrating hard-to-reach places.
Source: 3M ESPE internal data

Delivers more fluoride.

Because of its ability to flow across and between teeth, more varnish reaches more tooth surfaces—and more fluoride is released in the mouth compared to competitive varnish tested.

Mean Salivary Fluoride Concentration—After 1 Hour

Clinical test shows Vanish™ 5% Sodium Fluoride White Varnish provides higher average salivary fluoride levels in vivo.
Source: 3M ESPE internal data

Easy to apply.

Apply Vanish™ 5% Sodium Fluoride White Varnish evenly in a thin layer over treatment area(s) with sweeping, horizontal brush strokes. No suction required.

Simply apply one thin coat, sweeping the brush across tooth surfaces—and the Vanish™ 5% Sodium Fluoride White Varnish formula does the rest.

- Sets in the presence of saliva—no drying needed.
- Enhanced flow characteristics allow Vanish white varnish to reach interproximal areas other varnishes may miss.
- Covers and adheres to the areas where applied.

Protection you can't see.

Immediately after Vanish™ 5% Sodium Fluoride White Varnish was applied.

Vanish white varnish is virtually invisible on the teeth—but leaves a temporary thin coating so patients know it's working.

Ordering Information

Item #	Product Information
12149C	Vanish™ 5% Sodium Fluoride White Varnish 50 Pack—Cherry Flavor Includes: 50 unit-dose blister packets (0.5ml each) and applicator brushes in individual foil pouches; 1 patient pad; 60 dosage stickers; technique card
12149L	Vanish 5% Sodium Fluoride White Varnish 50 Pack—Melon Flavor Includes: 50 unit-dose blister packets (0.5ml each) and applicator brushes in individual foil pouches; 1 patient pad; 60 dosage stickers; technique card
12149M	Vanish 5% Sodium Fluoride White Varnish 50 Pack—Mint Flavor Includes: 50 unit-dose blister packets (0.5ml each) and applicator brushes in individual foil pouches; 1 patient pad; 60 dosage stickers; technique card
12150C	Vanish 5% Sodium Fluoride White Varnish 100 Pack—Cherry Flavor Includes: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12150L	Vanish 5% Sodium Fluoride White Varnish 100 Pack—Melon Flavor Includes: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12150M	Vanish 5% Sodium Fluoride White Varnish 100 Pack—Mint Flavor Includes: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12151C	Vanish 5% Sodium Fluoride White Varnish Bulk Pack—Cherry Flavor Includes: 10 boxes. Each box contains: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12151L	Vanish 5% Sodium Fluoride White Varnish Bulk Pack—Melon Flavor Includes: 10 boxes. Each box contains: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12151M	Vanish 5% Sodium Fluoride White Varnish Bulk Pack—Mint Flavor Includes: 10 boxes. Each box contains: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12151CL	Vanish 5% Sodium Fluoride White Varnish Bulk Pack—Cherry & Melon Flavors Includes: 10 boxes (5 Cherry, 5 Melon). Each box contains: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
12151X	Vanish 5% Sodium Fluoride White Varnish Bulk Pack—Assorted Flavors Includes: 10 boxes (4 Cherry, 4 Melon, 2 Mint). Each box contains: 100 unit-dose blister packets (0.5ml) each; 100 applicator brushes; 2 patient pads; 108 dosage stickers; technique card
