Whitening without Sensitivity!

Why offer any other Professional Teeth Whitener to patients with known severe sensitivity issues?

- 18% Carbamide Peroxide
- Short 30 minute wear-time
- 4ml Automix Syringe (5-6 complete treatments per syringe)
- SENSITIVITY FREE. Advanced formulation containing a unique water based hydrating agent to prevent sensitivity
- Beautiful results in as little as 5-8 days!
- 18 month shelf life (refrigerate for long term stability)
- Contains **Xylitol** for added caries prevention
- Pleasant peppermint flavor
- Patented formula
- ONLY dentist dispensed

“Over the past 27 years, I have personally tried various teeth whitening products only to be disappointed that my stains never improved or to have serious sensitivity issues. I tried

Nu Radiance DUET and in a matter of weeks I went from a shade of C 3.5 to a shade of A1 without any sensitivity issues!”

— Dr. Stephen Parker, Vernon Hills Dental Center
