

Impression Material Overview

3M[™] Impregum[™]

Soft Polyether Impression Material

Take control of challenging cases.

Summary of advantages

- Ideal for multiple unit cases and implant impressions
- Initially hydrophilic to provide void-free impressions in moist conditions
- Excellent flow property captures fine details that lead to precise-fitting restorations
- Snap-set behavior of "soft polyether" is ultra-forgiving
- Quick Step material cuts working and setting times by at least 33% over 3M[™] Impregum[™] Soft Polyether Impression Material

Indications

- Crowns and bridges
- Inlays and onlays
- Functional impressions
- Implant abutments
- Quick-setting materials especially suited for singleunit and two-unit impressions

3M[™] Imprint[™] 4 **VPS Impression Material**

The VPS material with the shortest setting time.

Summary of advantages

- Shortest intra-oral setting time for real time savings
- Sufficient working time for a stress-free procedure
- Super hydrophilicity for accurate detail reproduction
- Clinically proven tear strength
- Fresh material colors for easier readability
- Thermally active putty technology accelerates setting of wash material without reducing work time

Indications

- Crowns and bridges
- Inlays and onlays
- Implant abutments

• Orthodontic impressions

• Precision impressions using the 1-step and 2-step technique

3M[™] Imprint[™] 4 Preliminary

VPS Preliminary Impression Material

No dust. No mess. Just automix.

Summary of advantages

- Available for a hand dispenser or with a 3M[™] Pentamix[™] Automatic Mixing Unit
- Pouring when convenient due to long-term dimensional stability
- Multiple pours for easy remakes of models and provisionals
- Fast-setting "Super Quick" version available
- High hydrophilicity for easy model pouring
- Easy and thorough disinfection
- Homogeneous, void-free impression materials using 3M[™] Pentamix[™] Lite Automatic Mixing Unit

Indications

- Provisional crown and bridge impressions
- Opposing jaw impressions
- Study model impressions
- Preliminary impressions
 - Orthodontic impressions
 - Impressions for bleaching trays and mouth guards

3M Impression Materials — Product Portfolio Overview

Nothing compares to a good first impression. Experience superior results for your patients by selecting impressioning materials from 3M Oral Care Solutions Division, the worldwide leader in impression materials.
