

# mintakleen®

Proven Formula for Waterline Treatment. BY ANODIA SYSTEMS

## PROVEN:

Only EPA registered chlorhexidine product to clean dental unit waterlines (EPA #: 85298-2). Mint-A-Kleen's weekly treatment by itself meets ADA and CDC water quality standards.

## EASY TO USE:

Mint-A-Kleen is the only product needed for cleaning waterlines. No shocking necessary. *Does not require water treatment products* (i.e. tablets, powders, cartridges, or water filters).

## EFFECTIVE:

No harsh chemicals; will not corrode, clog or leave residue. No impact on bonding. Mint-A-Kleen directly contacts the microbial contamination on the walls of the waterlines.

## ECONOMICAL:

Use 4 oz once per week. One 16 oz. Mint-A-Kleen bottle treats an operator per month. *Only \$2.97/week per operator.*

**\*\*\* 1 Treatment lasts 1 week/operator.\*\*\***

**1 Pack**  
[4 Treatments]  
Patterson item #:  
088-2381
